### Weight Class

Players will be placed into a probable weight class based on the Fairfax County chart, (THE CHART ABOVE). A player's Official Playing Age is determined by what his/her age will be on October 1, 2005. For example, a player born on October 1, 1995 will play as a 10 year old because he/she will be 10 on October 1, 2005. However, a player born on October 2, 1995 will play as a 9 year old because he/she will only be 9 on October 1, 2005.

Registrants shall be informed during registration, of try-out dates and the **probable** weight class in which the player will participate. At the time of registration the player shall be weighed and the **probable** weight class will be indicated on the registration form. This **probable** weight class is determined by the weight limit allowed at the Official Fairfax County Weigh-in plus 7 pounds, and the player's current weight.

Because football assignment is determined by a combination of weight and age, weight loss is very common for players seeking to play at a lower weight class. **CYA FOOTBALL DOES NOT** encourage or support any player that chooses to lose more than 7 pounds. Any request for a player attempting to loose weight in order to play at a lower weight class must be made by a parent/guardian of that player to the Football Commissioner or an Assistant Commissioner.
